Join us for this athletic movement class designed for children with cognitive, motor, social delays or special need. This class is for students who normally couldn't participate in our regular classes. Melissa King is the instructor who has experience in special olympics and Special Education spaces in District 318. She coaches alongside Coach Madison. If this is your first time trying this class with your child, you can try for free the first time.

We will have introductions to sports, practicing coordination, turn taking, and following direction. 1 parent is welcome to watch or participate if needed. Contact us to register. Classes begin September 11th and end with a Spring Show in May.
